

CYCLONE Rectiverter Portable Smart Powerbank

IMP Rectiverter, Smart Powerbank might be Your Life Saver in an Emergency Situation.

IMP Rectiverter are rechargeable lithium-metal battery packs that come with AC outlets, DC carports for engine starting and USB charging ports. These lightweight wonders can keep all your gadgets charged from smartphones, tablets and laptops to small appliances such as mini refrigerators, fans, drones and most any other small power appliances.

In addition to regular power, these stations can be compatible with separately sold solar panels that can be recharged enabling the production of clean and green energy to safely power your electronic devices.

The best and most highly-rated (one even has 400+ five-star ratings) portable power stations available. Besides making your outdoor life easier, they are also some of the most advanced, easy to travel with and lightweight means never being short of power when you are outside. This powerful battery backup has a large charging capacity to keep your devices charged, is lightweight at just 6 kg and comes with an easy-to-carry handle.

ECO FRIENDLY

Specification

LITHIUM METAL (LiFeP04) RECTIVERTER				
Energy	Rectiverter 500 Wh	Rectiverter 700 Wh	Rectiverter 900 Wh	Rectiverter 1200 Wh
Indicator	10%, 20%, 40%, 60%, 80%, 100%			
Output	AC socket 240Vac DC 5V (USB) DC 12V			
Input	3 pin Areal socket Solar (Option) 12Vdc Cigarette Lighter			
Dimension	L355 x W272 x H105 mm			
Weight	5.0kg	7.8kg	9.0kg	11kg
Charging Temperature	0-45°C			
Operating Temperature	-20°C to 60°C			
Design Life	>3000 Times			
Warranty	1 year			
Packaging	ABS			
Special Task	Police, Military, Bomba (Fire Bridade) etc			
Outdoor	Camping, 4x4 activities etc, Fishing			
Business	Night Market			
Rescue	Flood relief center, Disaster			
OTHER				
240 Vac can be use for Cooking, Fan, Lamp etc				
5 Vac for charging Mobile Phone, Ipad, Etc				
Jump Start Car when you need it				
RECTIVERTER CHARGER				
Model	Rectiverter 500 Wh	Rectiverter 700 Wh	Rectiverter 900 Wh	Rectiverter 1200 Wh
Input Voltage	200-240 Vdc			
Output Voltage	12.6+1% Vdc			
Efficiency	1+10% Amps			
Cut Off	>85%			
Dimension	L162 x W61 x H32 mm			
Indicator	Green (Power ON / Full Charged) Red (Charging)			
Wire Lenght	1.5 m			
Weight	0.28 kg			
Packaging	ABS
